Dear Juan,

Congratulations on winning the 2006 Fitzpatrick Dealer Challenge.

Thanks to your outstanding effort, you and your team achieved 120% of your sales objective in December 2005 and January 2006 and contributed to WDMO's third consecutive year of record sales -- and a strong start in 2006. To recognize and thank you for this outstanding effort, I am delighted to present you with this model replica of my great grandfather Henry Ford's first vehicle, the 1896 Quadricycle.

The Quadricycle symbolizes the spark of innovation that gave birth to Ford Motor Company and its rise to automotive greatness, and this spirit is alive and well at Ford Motor Company today. In fact, vehicles like the Ford Edge and the Fairlane Concept, which you are seeing this week in Las Vegas, continue the legacy of the Quadricycle and carry ground-breaking Ford vehicles like the historic Model T.

Rest assured, we are hard at work designing, engineering, manufacturing, and delivering more exciting cars and trucks to your showroom to continue the sales momentum you have begun -- and leave the competition behind.

Thank you for your support, loyalty and dedication to the Ford brand. Your success is helping Ford Motor Company to expand and grow its global presence. In short, as a member of the extended Ford family, your success is critical to ours.

Best wishes to you and your team. Now, let's make 2006 another great year!

Sincerely,

Bill Ford
